

Secabo TC D5 pneumatic double base heat press

With the TC D5, high volumes of transfers can be produced efficient, professional and precise. The pressure of the heat press is created by compressed air. For the user this means easy and convenient working with exact and reproducible results. All parts fulfill all European safety regulations, the size of the base plates is 38 x 38 cm. The horizontally variable heating plate can easily be adjusted above the working plate.

Feature Übersicht:

digital controllers

Time and temperature can easily be set and controlled by the digital controllers.

WarrantyPLUS optional

Optional Express Exchange Service WarrantyPLUS 12 or 24 months for a simple replacement of the device in case of damage.

big working space

With the high clam angle of 50° objects can be aligned precisely

variable pressure

the pressure can easily be adjusted - depending on the technology and object

safe use

The safety and quality of the machines is permanently controlled by German safety standards

exact temperature distribution

The high-quality heat plate ensures an exact temperature distribution over the whole heating plate

little hysteresis

The temperature controllers reduce temperature fluctuations to a minimum

two working plates

with the 2 base plates, high production volumes can easily be achieved

technical data:

heat press:	Secabo TC D5
Type:	pneumatic double plate heat press, clam press
for:	2 x 38cm x 38cm
max. temperature:	260°C
max time setting:	9999s
Max pressure:	350g/cm ²
Pressure setting:	Adjustment of the pneumatic pressure
max. pneumatic pressure:	10bar
Power supply:	Wechselspannung 230V / 50Hz - 60Hz, 2,2kW
Environment:	+5°C - +35°C / 30% - 70% humidity
Weight:	82kg
dimensions(W x H x L):	84cm x 52cm x 55cm
scope of delivery:	Transfer press, power cable, mounting for compressor, German manual

erhältliches Zubehör:

silicon mat 40cm x 40cm - heat resistant mat made of silicon to compensate unevennesses (e. g. tiles) and to protect damageable surfaces during heat transfers, 40cm x 40cm, 1mm thick

heat plate protection with PTFE coating 38 x 38cm - Self adhesive glass fibre film with PTFE coating made in Germany. Replacement for damaged or worn non-stick coatings of heat plates, sheet of 38cm x 38cm, 150µm thick.

Exchangeable base plate 8cm x 12cm - Exchangeable base plate for almost all Secabo heat press models, 8cm x 12cm.

Exchangeable base plate 15cm x 15cm - Exchangeable base plate for almost all Secabo heat press models, 15cm x 15cm.

Exchangeable base plate 20cm x 30cm - Exchangeable base plate for almost all Secabo heat press models, 15cm x 15cm.

Exchangeable base plate 12cm x 38cm - Exchangeable base plate for almost all Secabo heat press models, 12cm x 38cm.

cross laser - flexible cross laser for positioning aid of transfer objects. Suits all Secabo heat presses
